Healthy School Lunch Program

Super Submarine in Dundas is under new ownership! Our goal as new owners is to promote a healthy lunch choice as a way to compliment and enhance school programming and fundraising needs. Many families are faced with the daily challenge of preparing a healthy lunch.

That's where Super Submarine comes in handy! We would like to offer our services in providing full lunches with healthy choices at a reasonable cost. Our lunches would be prepared fresh on the morning of delivery and each lunch will be individually packaged for easy distribution.

.....

Fundraising

The healthy lunch program is a fundraising opportunity as well.

Schools participating in the Super Submarine lunch program will receive **10%** of the total lunch sales. These funds can be used by the school toward any school fundraising priorities.

.....

Our Lunch Plan

We can provide lunches from subs only to complete lunches, including drink, submarine and snack. We look forward to developing a lunch program to meet the specific needs of your school. Please call Super Submarine for details.
